About TER - Tour European Rally

"The TOUR EUROPEAN RALLY – TER project was born to merge the assets of some outstanding rally events in Europe and create a “Championship” in order to have an enhanced global promotion.

The chosen events must have outstanding characteristics: based in tourist-oriented areas, they must possess unique specific features different from the other championship events and they must display an excellent touristic and/or historical background.

In all the TER rounds, the "TER RALLY VILLAGE" will enable each event to promote and share its location, tourist packages, food, history, etc.

The TER Championship and its locations are promoted through a wide TV Coverage around the world with main partners such as FOX Sport and MotorsTV, by social networks and the most important web platforms, by newspapers, magazines, and other important media”.
